

MOBILE WALLET

All North Coast Debit and Credit Cards can use Mobile Wallet with Apple Pay, Google Pay or Samsung Pay.

MOBILE WALLET is a Digital Payment system for your smart phone that allows you to complete a transaction without having to pull your cards out of your wallet. Digital Payment systems provide a token (instead of your credit card number) which makes this a more secure way to pay for your purchases.

To get started with Mobile Wallet:

1. Download the “Pay” app you prefer from your App Store. Use the Wallet App for an Apple device, Samsung Pay or Google Pay for an Android device.
2. Follow the prompts to set up security and enter your card information.
3. You may need to have your card(s) verified by us so just give us a quick call.
800-696-8830
4. When you enter all of your North Coast Debit and Credit Card information select a default card. You can change the card you want to use for each transaction, but be aware that the picture of the credit card does not change as you toggle back and forth. Just check the number on your card to be sure that it matches the card you would like to use.
5. At participating merchants: unlock your device and hover over or tap the terminal. You will get a notification once the transaction is complete.
